Douglas Family Foundation Purpose Story

We create opportunities for people facing adversity to transform their lives.

We do this by:

- Funding social inclusion interventions in mental health, education, employment and causes that have personal connection to our family members;
- Supporting people of all backgrounds;
- Respecting the natural environment;
- Deepening relationships with our partner organisations;

In doing so, society will be more inclusive.

We do this with partners who share our values of connection, opportunity and integrity.
